Why Outsource Payroll?

Outsourced Payroll Saves You Money

The answer is simple. You can free up valuable time and resources when you opt for a fully managed service with our bureau. Let our specialist experts handle your payroll so that you do not need to keep up to date with the latest payroll news and government regulations.

You no longer require expensive software that needs to be updated every time payroll legislation changes. You avoid fines for submitting your tax returns late.

Easy Access to Your Payroll

You will be able to access your full details online in your client area, and your employees will be able to access their details as well. Each employer has a unique login and each employee has a personal login. As an employer, you will be able to see everything pertaining to your entire payroll. Your employees will only be able to view information relating to their own pay.

Great for the Environment

All our work is done by email, online, and in the cloud. The payslips are emailed directly to your employees and a comprehensive report is emailed directly to you. Both you and your employees will then be able to access, view, and print everything that might be needed by logging in to your client area.

Why PayrollsDirect.com?

We offer a personal service that is second to none. Whenever you call our freephone number, a human being will always answer the phone and direct your call to the right person. We will always try to deal with your query on the spot, but if it is not possible to give you an answer immediately, you will get a reply on the same day from your personal, professional payroll expert.

- A Flexible Service
- Dedicated Control Panels
- Great for the Environment
- No Need to Keep Up With Latest HMRC Regulations

PAYROLL MADE EASY

For larger companies, employing a payroll expert to manage their payroll can be very expensive. Salaries for a payroll expert start at £26k and can be much higher in large cities such as London.

PAYROLL SOFTWARE IS EXPENSIVE

It makes economic sense for small and large companies alike to outsource their payroll. In this way, they can focus on growing their business, rather than keeping on top of the latest regulations and tax tables.

DEDICATED HELPLINES

When you call our telephone number, a human being, not a computer, will answer the phone. You can rest easy knowing that help is only one call away. Call us on 0116 271 7282 whenever you need help.
